Project Name	GARAGE MANAGEMENT SYSTEM
Maximum Marks	2 Marks

Problem – Solution Fit Template:

problem solution

- Manual Processes: Paper-based records, scheduling conflicts, lost invoices.
- Inefficiency: Slow service tracking, poor inventory management.
- Limited Visibility: No real-time updates for customers, hard to analyze performance.

Solution (Garage Management System)

- Centralized Platform: Digitize records, automate scheduling, track services.
- Inventory & Billing: Manage parts, generate invoices, process payments.
- Customer Engagement: SMS/email updates, appointment reminders.
- Insights: Reports on services, revenue, stock levels.

Benefits

- Faster Operations: 30% less wait time, fewer errors.
- Better Customer Experience: Transparency, timely alerts.
- Cost Savings: Optimized inventory, staff productivity.

Purpose:

Purpose of Garage Management System A Garage Management System automates and streamlines operations of a vehicle repair/service garage, boosting efficiency and customer satisfaction. Key purposes:

- Manage Vehicle Records: Track details, owner info, service history.
- Schedule & Monitor Services: Book appointments, assign mechanics.
- Inventory Control: Manage spare parts, tools.
- Billing & Payments: Generate invoices, process payments.
- Reports & Analytics: Service summaries, revenue reports.
- Customer Engagement: Notify about status, reminders.
